Visa USA Interchange Reimbursement Fees

Introduction to the Visa USA Interchange Reimbursement Fees

The following tables set forth the interchange reimbursement fees applied on Visa financial transactions completed within the 50 United States and the District of Columbia.

Visa uses interchange reimbursement fees as transfer fees between financial institutions to balance and grow the payment system for the benefit of all participants. Merchants do not pay interchange reimbursement fees; merchants pay "merchant discount" to their financial institution. This is an important distinction, because merchants buy a variety of processing services from financial institutions; all these services may be included in their merchant discount rate, which is typically a percentage rate per transaction.
